TUSHFIN™ Series – Tushfin BRIGHT WS
Antiphenolic Agent – Textile Finishing Applications

Manufacturer: Tusi Haytham Bio Limited

Product Description:
Tushfin BRIGHT WS is a high-performance antiphenolic agent designed to prevent yellowing in textiles caused by phenolic contaminants or oxidative processes. It maintains fabric whiteness, brightness, and appearance, ensuring long-lasting quality in garments, home textiles, and industrial fabrics.

Key Performance Properties:

- **Prevents yellowing and discoloration during processing and storage.**
- **Maintains fabric softness, drapability, and handfeel.**
- **Compatible with cotton, polyester, blends, and dyed fabrics.**
- **Suitable for padding, coating, or exhaust finishing processes.**
- **Enhances visual appeal and prolongs fabric life.**

Typical Properties:

Property	Specification
Appearance	Clear to pale yellow liquid
Solid Content	10 – 18 %
pH (25 °C)	6.0 – 8.0
Solubility	Fully miscible in water
Stability	Stable under normal storage and processing conditions

Application:

- **Apply Tushfin BRIGHT WS via padding, coating, or exhaust finishing processes.**
- **Typical pickup: 2 – 8 % owf depending on fabric type and desired anti-yellowing effect.**
- **Dry or cure fabric according to process requirements for optimum brightness and color stability.**
- **Compatible with softeners, cross-linking agents, antistatic agents, and other finishing auxiliaries; optimize via lab trials.**

Precautions:

- **Avoid direct contact with eyes and skin; wear protective gloves and eyewear.**
- **Do not mix with strong acids or oxidizing agents without proper dilution.**
- **Store in tightly sealed containers to maintain product quality.**

Packing Size:
Available in 25 kg, 60 kg, and 200 kg HDPE drums.

Storage:

- **Store in a cool, dry, ventilated area below 40 °C.**
- **Shelf life: 12 months from date of manufacture in unopened containers.**
- **Check product label for “Best use before end” date.**
